IEEE International Conference on Cluster Computing
CLUSTER 2006

IEEE/ACM International Conference on Grid Computing
GRID 2006

Hotel Barcelona Sants, Barcelona, SPAIN

http://www.cluster2006.org/

http://www.grid2006.org

September 25 - 29, 2006

EXHIBITOR PROSPECTUS

TFCC
IEEE Task Force on Cluster Computing

The Cluster 2006 and Grid 2006 conferences, to be held in the same week in and around Barcelona, Spain, provide an open forum for researchers, practitioners, and users to present and discuss issues, directions, and results that will shape the future of cluster computing and grid computing.

The Cluster series of conferences is one of the flagship events sponsored by the IEEE Task Force on Cluster Computing (TFCC) since its inception in 1999 and has been drawing the top 200-250 researchers in cluster computing world wide. Commodity clusters provide convenient and cost-effective platforms for executing complex computation-, data-, and/or transaction-oriented applications. To achieve higher performance, scalability, and usability, research and development challenges remain in virtually all areas of cluster computing, including middleware, networking, algorithms and applications, resource management, platform deployment and maintenance, and integration with grid computing.

The Grid conference series is an annual international meeting that brings together a community of researchers, developers, practitioners, and users involved with Grid technology. The objective of the meeting is to serve as both the premier conference presenting best Grid research and a forum where new concepts can be introduced and explored. The first event, Grid 2000, was celebrated in Bangalore, India. From the second event through the sixth, it has been known as the Grid Workshop affiliated with the Supercomputing SC conference series. All of these events have been successful in attracting high quality papers and a wide international participation. Last year's event attracted about 400 registered participants. For this, the seventh event, it will be celebrated as an independent conference.

Exhibits Package I: **€5,000**
One Conference Registration
10'x10' Exhibit space
1 table, 2 chairs, 1 waste basket
Internet connection
Electricity connection

Exhibits Package II: **€2,500**
One Conference Registration
6'x6' Exhibit space
1 table, 2 chairs, 1 waste basket
Internet connection
Electricity connection

Exhibits Package III: **€1,250**
6'x6' Exhibit space
